marbab-boby

arbabtahir7865@gmail.com Ghori Town 4A, Islamabad

SUMMARY

GIS Developer with expertise in geospatial application development, backend systems, and web technologies, combined with strong experience in coordination, documentation, reporting, and stakeholder engagement. Proficient in Python, SQL, JavaScript, and GIS tools (ArcGIS, QGIS, ENVI), with hands-on experience in spatial data processing, interactive dashboards, database integration, and data-driven solutions. Adept at communication management, record keeping, meeting coordination, and report preparation, supporting inter-organizational collaboration, operational activities, and decision support.

EDUCATION

Bachelors in Space Sciences | CGPA 3.37

Institute of Space Technology, Islamabad | 2019- 2023

Pre-Engineering

Punjab Group of Colleges, Abdul Hakim | 2017 - 2019

Matriculation (Science)

Govt. High School, Abdul Hakim | 2015 - 2017

SKILLS

TECHNICAL

Programming & Data Analysis: Python, R, MATLAB, SQL, C++

Web Technologies: HTML, CSS, JavaScript

GIS & Remote Sensing Tools: QGIS, ArcMap, ENVI, GrADS, RCLimDex

Visualization & Analysis: Excel Dashboards, GNUplot

Others: Project Management, Photogrammetry, NeRF, Climate Data Analysis

SOFT

- Observation • Decision Making
- Communication • Multi-tasking

PROJECTS

- **Comparison of 3D Photogrammetry & NeRF Models:** FYP focusing on AR/VR navigation and model performance.
- **US Wildfires Monitoring Web App (2000-2020):** Developed an interactive heatmap using web languages to visualize wildfire trends.
- **Climate Change Detection (KAKUL):** Calculated climate indices using RCLimDex to monitor extreme weather trends.
- **Property Management System:** Created a data visualization and storage tool in C++.
- **Space Policy Proposal for Pakistan:** Researched and drafted a strategic policy framework.

PROFESSIONAL EXPERIENCE

Social Media Specialist

Pakistan Television Corporation | August 2023 to Present

- Maintain communication and coordination with internal departments and external stakeholders, supporting operational and collaborative activities.
- Assist in planning, organizing, and documenting meetings, preparing summaries, briefs, correspondence, and follow-ups for management.
- Develop and maintain web-based dashboards, reporting tools, and digital management systems, utilizing Google Analytics and SQL to support performance evaluation, reporting, and decision support.
- Ensure accurate record-keeping, data integrity, account security, and streamlined workflows in coordination with IT and management teams.

Intern

Pakistan Meteorological Department | 2022

- Analyzed forecast models (ECMWF, ICON, GFS) against observed data.
- Prepared comparative reports to assess model accuracy for meteorological prediction.

Home Tutor (Freelance) | 2022 - Present

- Deliver science and technical subject tutoring to students from middle school to BS level.
- Assist with assignments and exam preparation.

CERTIFICATIONS & TRAINING

- Excel Dashboard for Beginners (2025)
- Introduction to Spark AR Course by Meta (2025)
- Google Soft Skills Program (2024)
- Introduction to Data Science (2024)
- Image Processing Onramp - MathWorks (2023)

ACHIEVEMENTS

- Bronze Honor - International Youth Math Challenge (2021)
- Best Participation Award - 1st Intl. Space Science & Payload Competition (2022)
- Appreciation Letter - Ministry of Information & Broadcasting, Govt. of Pakistan (2024)
